

# SpillAway+ Absorbent

## PRODUCT OVERVIEW

SpillAway+ Absorbent™ is a highly absorbent product for clean-up of hydrocarbon oil spills from solid surfaces. Its high absorbency makes SpillAway+ Absorbent™ the ideal product to absorb oil, diesel fuel, gasoline, kerosene etc. It will absorb on contact and will not leach, leaving the surface completely dry, free of contaminant and slip-free.

## HOW TO USE

1. When using on a fresh spill, use just enough SpillAway+ Absorbent™ on the spill perimeter to create a barrier around the spill.
2. Apply SpillAway+ Absorbent™ liberally to the spill itself so that it covers the spill excessively.
3. When the oil has been absorbed by the powder it turns dark grey. Simply sweep up the powder and put it back into the jar with the clean absorbent - shake the jar or stir the contents to mix them. SpillAway+ Absorbent™ is up to 10 times more absorbent than competitive products.
4. SpillAway+ Absorbent™ will leave the surface free from contamination and skid resistant.

## WHAT IT CAN TREAT

SpillAway+ Absorbent™ can be used in all phases of manufacturing, commercial and industrial operations. The following is a partial list of the many uses of SpillAway+ Absorbent™:

|                    |                      |                   |                           |
|--------------------|----------------------|-------------------|---------------------------|
| Driveways          | Garages              | Elevator pits     | Vehicle parking areas     |
| Warehouses         | Loading Docks        | Blow pits         | Hydraulic line breaks     |
| Fuelling areas     | Auto washing areas   | Maintenance areas | Manufacturing floors      |
| Machine shops      | Lubrication areas    | Concrete walls    | Chemical storage areas    |
| Equipment failures | Pumping Stations     | Tool Shops        | Lubricant pipeline breaks |
| Parking areas      | Brick & gravel areas | Oil storage areas | General housekeeping      |

## TECHNICAL INFORMATION

SpillAway+ Absorbent™ is also available with safe and effective microbes which will bio-remediate hydrocarbon contamination - thereby reducing your costs for hazardous waste disposal.

**SpillAway+ Absorbent™ is a pharmaceutical grade absorbent.**

It has been our experience that the absorption action of this product begins immediately.

|                  |             |
|------------------|-------------|
| Appearance       | Grey Powder |
| Odor             | Odorless    |
| Boiling Point    | N/A         |
| Soluble in Water | Insoluble   |
| pH Concentrate   | 7.2         |
| pH Diluted       | 6.9 to 7.5  |
| Evaporation Rate | N/A         |

## PACKAGING INFORMATION

Available as : Jugs - 4.5 Kg  
Case - 4 x 4.5 Kg jugs  
Pail - 11 Kg
