

Q™ Series by Hexagon

Q™ Series is the exclusive product line designed and manufactured for Hexagon Europe under its strict quality and performance requirements.

All Q™ Series products provide high performance characteristics and are uniquely & exclusively supported by Hexagon's unmatched after sales service and support in combination with HAP Hexagon Analysis Programme.

Q™ Antares Stern Tube Oil E

Product Description

Q™ Antares Stern Tube Oil E is a mineral based lubricant specifically designed and manufactured by Hexagon Europe, enriched with additives that assuring effective lubrication when water is present in the system.

It offers excellent protection against rust and corrosion and is enriched with high quality antioxidant additives.

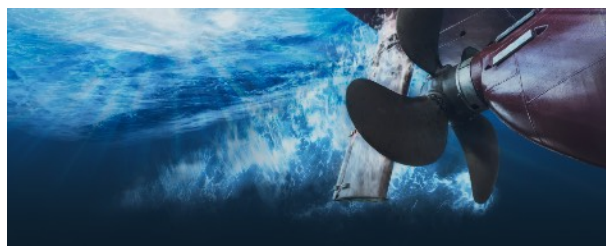

When excess water is present it forms a stable emulsion that offers excellent protection and increases maintenance intervals. It offers excellent pumpability and filterability.

Applications

Q™ Antares Stern Tube Oil E is suitable for the lubrication of stern tube bearings, where there is a high risk of contamination of the lubricant with water due to normal operation or an unexpected seal failure. Hexagon's Q™ Antares Stern Tube Oil E is fully compatible with mineral lubricants normally used in the stern tube such as system oil.

Advantages

- Exceptional anti-foam properties.
- Efficient anti-oxidant characteristics.
- When contaminated with water the product produces a stable emulsion.
- In case of emergency, water rates of up to 40% can be handled for short periods of operation.
- High quality oils with high natural Viscosity Index.
- Compatible with existing lubricants.
- Protects white and yellow metals usually used in stern tube bearings.
- Increases component life.

Typical Data		
Q™ Antares Stern Tube Oil E	Method	Values
Density at 20 °C, g/ml	ASTM D1298	0.901
Viscosity at 100 °C, cSt	ASTM D445	24.5
Viscosity Index	ASTM D2270	95
Flash Point, [COC], °C	ASTM D92	270
Pour Point, °C	ASTM D97	-6

Q™ Antares Stern Tube Oil E

Available Packages

Pail[20lt], Drum[208lt]

(For more available packages please contact your sales representative or the sales department)

Health and Safety

Avoid prolonged or repeated contact of used lubricants with skin. In case of skin contact wash well. Used lubricants should be collected in special containers and disposed of in accordance to local legislation. For additional information please consult with the Material Safety Data Sheet (SDS).

About Hexagon Europe

Hexagon Europe, was founded in Greece in 1989. It is the exclusive distributor and marketer of **Lubrication Engineers® (USA)** high-performance lubricants designed for the heavy industries, the shipping industry, off-road and on-road vehicles and passenger cars, the exclusive distributor of **Viper® WRL**, Wire Rope Lubricator (a completely unique system to lubricate and protect wire ropes of any size, of **Spillaway® Projects**, bioremediation products that bioremediate oil spills of any kind from soil or the sea, of **MAK Chem®** with a complete line of chemical cleaning products, of **Fluitec® (USA)**, a producer of varnish removal fluids, of **Elix®** waterless hand-cleaning towels and other cleaning substances, of **SulNox®** fuel additives offering responsible solutions towards decarbonisation of liquid hydrocarbon fuels and **Delta-Xero®** an innovative filtration systems manufacturer of most kind of fluids and fuels, filtering down to 1µm.

Hexagon Europe is responsible for marketing and developing the markets in Greece, Cyprus, Bulgaria, Albania, North Macedonia, Montenegro and Kosovo, whilst also being active in Serbia and Romania.

Hexagon Europe is a reliable high products and services supplier of most heavy industries, construction, food and shipping companies in its territories, with seven major warehouses strategically located globally

Hexagon Europe offers the most advanced and sophisticated oil analysis programme, HAP (Hexagon Analysis Programme) and is in partnership with Polaris offering unique oil analysis services and software.
